

UFOs Are Back By Popular Demand
Stan Romanek Brings You
Messages: The World's Most Documented
Extraterrestrial Contact Story

Monday, March 15, 2010, 7:00 p.m.

Highlands Ranch SOUTHRIDGE Rec. Center, 4800 McArthur Ranch Road

Light Refreshments: 6:30 p.m.

The Program is FREE. Call for reservations: Caroline Smith 303-471-5611

The Stan Romanek case is one of the most well known and most documented extraterrestrial contact cases in the world! Stan will share his personal experiences and will present photographic, video and audio evidence of his documented ten years of experiences with extraterrestrial beings, UFOs and other "high strangeness" that surrounds him and his family. Others have come to realize that the Extraterrestrials have chosen Stan to be a messenger of sorts, to simply share his experiences with others to help them understand the reality of the ET's existence.

Stan authored the bestselling book *MESSAGES* that was released in May of 2009. Stan was an adamant skeptic... a non-believer in UFOs until he witnessed his first UFO in December of 2000. At that time, his perception of UFOs was irrevocably altered; he could no longer deny what he had witnessed.. Stan's experiences began when he was a child, but the memories of these encounters were not to surface until after his first abduction in 2001 when he was 39 years old. The Stan Romanek case is unprecedented and possibly the most scientifically documented human/extraterrestrial encounters case in the world.

See more about Stan's amazing story on the reverse of this page and at www.stanromanek.com.

Close Encounters: Scientific Proof UFOs and Aliens Real, says Stan Romanek: Physicists posit that strange, reportedly extraterrestrial equations may be key to secrets of so-called "free energy" and interstellar travel.

ST. PAUL, MINN.— *Constant surveillance. Warnings about your family's safety. Tapped phones, break-ins, and strange grey creatures peering into your living room window.* Sounds like every bad UFO movie you ever saw, but in Stan Romanek's case the evidence for alien abductions has never been so compelling.

The national spotlight has followed Stan Romanek's accounts of alien abductions ever since the release of his home video in 2008 of what he insists is footage of an extraterrestrial being. For more than 5 years, reputable scientists and scholars have studied the strange formulas and equations Romanek claims were given to him during his encounters and have come to the same conclusion—the complexity of the equations and diagrams is genuine, and may hold clues to the secrets of zero-point energy and even interstellar travel.

Some of the startling claims in Romanek's book include:

- Complex equations concerning advanced methods of propulsion, including potential clues to zero-point, or "free energy" propulsion.
- A map of planetary alignment corresponding with September 21, 2012.
- The chemical structure for Element 115—Ununpentium—recorded by Stan three years before it was formally discovered by scientists.
- Medical verification and photographs of numerous mysterious wounds and scars that fluoresce under ultraviolet light and have perplexed medical doctors.

Stan was interviewed on *Larry King Live* and was featured on ABC's *20/20* and the History Channel's "UFO Hunters," Romanek's true story of extraterrestrial encounters was available for the first time in a new book released in May 2009—*Messages: The World's Most Documented Extraterrestrial Contact Story* (Llewellyn Publications).

Romanek's *Messages*—fully illustrated with video footage stills, photographs, and scans from the original documents, is the unforgettable true story what is perhaps the most documented extraterrestrial contact case of all time.

What Physicists Say About Stan Romanek and Messages:

"Stan's book is a welcome addition to the UFO literature. His extensive and varied experiences provide new insights into some of the mysteries of ufology. He leads us to better understand the minds of some extraterrestrials, but at the same time raises questions that demand further research."

—*Dr. Jack Kasher earned his Ph.D. in theoretical physics at Boston College, and is currently Professor Emeritus of Physics at the University of Nebraska at Omaha. A consultant at Lawrence Livermore National Laboratory for 17 years, DR. Kasher has been part of research teams for the Star Wars defense system and for NASA.*

And:

These equations are quite beyond Stan's ability to fabricate—my sense is that they are like a trail of breadcrumbs designed to lead us to a deeper understanding of physics. Stan has meticulously documented his experiences with signed witness statements, press reports, lab reports, and breathtaking photographs and video of the alien visitors. Those who have spent time with him have been treated to unforgettable paranormal phenomena and events that defy current scientific explanation. This is one of the most important books you will ever read."

—*Dr. Claude Swanson received his degree in physics from MIT, his Ph.D. from Princeton University and post doctoral work in engineering and aeromechanical engineering from Princeton and Cornell. He is the author of The Synchronized Universe.*

About the author

Stan Romanek is the center of what may be the most documented extraterrestrial contact case of all time. He has appeared on *Larry King Live*, *FOX News*, *Entertainment Tonight*, and has been featured in several documentaries on ABC, NBC, and the *SciFi* channel, as well as numerous other radio and television programs. He lives with his wife near Denver, and continues to experience ongoing strange phenomena.
